

## New Orleans Central Jail HVAC system using Amiad's Galaxy filters

By Omry Levin

The management team from the New Orleans Central Jail facility is extremely satisfied with the Amiad Galaxy systems installed 7 years ago.

Two Galaxy Spin-Klin™ filter batteries of 6 pods each with 55-micron discs were installed on a 10% side stream of the total flow.

The filtration system is doing a great job at keeping the Central Jail HVAC cooling tower systems clean, even in New Orleans' hot and humid climate.

As the director of the New Orleans jail facility said, "I'm impressed with the performance of those reliable filters!"
