

## Dear Friends at Amiad Water Systems,

At the end of 2018, you decided to be part of ending the water crisis by making a substantial investment in charity: water's work in Bangladesh. The impact you have as a Water Project Sponsor is truly transformative, and we are celebrating with you today as you learn more about the work you've made possible!

**100% of your generous donation funded 1 Piped System for people living in the Faridpur, Gopalganj, Barishal, Jhenaidah, Bagerhat, Jashore, Satkhira, Chattogram, and Cox's Bazar Districts of Bangladesh.**

Thanks to you, we're one step closer to making sure that every single person on the planet has access to clean and safe water. Your donation was part of a \$1,543,212.62 commitment that funded 262 projects and brought clean water to 277,102 people!

BRAC implements piped systems in schools that bring water from deep tube wells to tap stands for drinking and handwashing. Each school receives one piped system (one "project") with one or two tap stands. Each tap stand has soap, as well as wall paintings with hygiene messages. All staff, children, and, where possible, parents and community members associated with these schools, also receive comprehensive hygiene and sanitation education. At schools with particularly high populations and an insufficient number of toilets to serve sanitation needs, charity: water also funds the construction of new latrine blocks.

It's an honor to present you with this Completion Report. In my role as a Water Programs Manager at charity: water, I oversee our partnership, implementation strategy, and commitments in Bangladesh. It has been an immense privilege to witness how life-changing clean water is for those in need. You are bringing our mission to life and giving hope to so many. Thank you for your generosity.

Sincerely,

Stephanie Goetz

Water Programs Manager, charity: water
